

4 Courses

**Intro to Snowflake for Devs,  
Data Scientists, Data  
Engineers**

**Introduction to Generative  
AI with Snowflake**

**Building Generative AI Apps  
to Talk to Your Data**

**Building AI Agents with  
Snowflake**

Apr 1, 2026

## Chaitanya Malani

has successfully completed the online Professional Certificate

# Snowflake Generative AI

Those who earn the Building AI Agents with Snowflake certificate have completed three courses that include hands-on exercises designed to prepare them for roles in AI application development and data engineering. They understand the differences between AI assistants and autonomous AI agents. They are competent in building semantic views for structured data queries, creating search services for unstructured text, and configuring agents that autonomously select tools to answer complex business questions. They have built complete AI agents for sales intelligence and customer service scenarios, written effective orchestration instructions, and integrated agents with external applications using Model Context Protocol.
